

Helipebs Group Quality, Occupational Health & Safety and Environmental Policy

By operating appropriate certificated management systems, the Helipebs Group (Helipebs Limited and Helipebs Controls Limited) is committed to the requirements of and continual improvement to the Quality, Health & Safety and Environmental systems we have in place.

Our intent is to provide the highest standard of design, service and quality for all products manufactured and supplied to our customers. In doing this we also recognize the need to balance our business aims whilst providing adequate control of the health & safety risks arising from our work activities and the effect those activities may have on the environment.

The Group will take into account and comply with all applicable legislation and other requirements to which the organization subscribes.

Our systems provide a framework for the setting and reviewing of objectives and for policy review with the aim of continual improvement.

We are committed to the prevention of injury and ill health to our employees and others through the use of risk assessment and good working practice and to preventing pollution and the impact of our business on our neighbours.

We recognize that the quality of our products, our health & safety status and our impact on the environment depend on the everyday actions of those in the Group's employment.
